

NEW YORK ONE-DAY CONFERENCE ON eating disorders in children and adolescents

Maudsley Parents Conference 2012

Debra Katzman, MD

Daniel Le Grange, PhD

Rebecka Peebles, MD

Katharine Loeb, PhD

Evelyn Attia, MD

February 17, 2012, 8:30 - 4
Pearl River Hilton
500 Veterans Memorial Drive
Pearl River, NY 10965

The last five years have brought important changes in the understanding and treatment of child and adolescent eating disorders. Please join Maudsley Parents' Harriet Brown, leading experts in the field, and special guest Lynn Grefe, President and CEO of the National Eating Disorders Association, for a one-day conference exploring the current state of treatment as well as new directions and hope for the future. Who should attend? Treatment providers, families, friends and others involved in outreach and advocacy.

Debra Katzman, MD

Eating Disorders in Children and Adolescents: Where Do We Stand?

Daniel le Grange, PhD

Working with Families: Therapist and Parent Perspectives

Rebecka Peebles, MD

The Medical Side of Eating Disorders in Children and Teens

Katharine Loeb, PhD

Early Intervention for Eating Disorders: What, Why, and How?

Evelyn Attia, MD

Is there a Role for Medication in Teens with Eating Disorders?

\$75/per person

Our Speakers

Debra Katzman, MD

Dr. Debra Katzman is the Head of the Division of Adolescent Medicine, an Associate Professor of Paediatrics in the Division of Adolescent Medicine, Department of Paediatrics and the University of Toronto, and the Medical Director of the Eating Disorders Program at The Hospital for Sick Children. Dr. Katzman is also an Associate Scientist at the Research Institute at The Hospital for Sick Children. Her primary academic interest is the medical complications of adolescent eating disorders. She has focused her research in the area of osteoporosis in young girls with anorexia nervosa. Dr. Katzman is also investigating brain structure and function in young women with anorexia nervosa using magnetic resonance imaging.

Daniel Le Grange, PhD

Dr. Le Grange is Professor of Psychiatry and Behavioral Neuroscience and Director of the Eating Disorders Program at the University of Chicago. He trained at the Institute of Psychiatry, University of London, and was a member of the team at the Maudsley Hospital that developed family-based treatment for anorexia nervosa. He is the author of numerous research publications and received an National Institute of Mental Health (NIMH) Early Career Development Award. Dr. Le Grange is currently principal investigator for studies on treatment of both bulimia nervosa and anorexia nervosa.

Rebecka Peebles, MD

Dr. Peebles is an Assistant Professor in the Division of Adolescent Medicine at the Children's Hospital of Philadelphia and the University of Pennsylvania School of Medicine. Prior to CHOP, she was an Instructor at Stanford University School of Medicine's Division of Adolescent Medicine, Department of Pediatrics, and was primarily involved with the Eating Disorders Clinic and Center for Healthy Weight at the Lucile Packard Children's Hospital. Dr. Peebles' research interests focus on the health outcomes of disordered eating in adolescents of diverse weight ranges, and how the Internet can be used as a vector to both help and harm young people as they try to approach a healthy weight. Her most recent work has been funded by the American Heart Association.

Katharine Loeb, PhD

Dr. Loeb is Associate Professor of Psychology at Fairleigh Dickinson University and Director of Research at the Eating and Weight Disorders Program at Mount Sinai School of Medicine, where she is also Adjunct Associate Professor of Psychiatry. Dr. Loeb received her doctorate in Clinical Psychology from Rutgers University and completed a fellowship in Child and Adolescent Psychiatry at Columbia University. She is funded by the National Institutes of Health to study the early identification and treatment of anorexia nervosa and new adaptations of family based treatment for eating and weight disorders.

Evelyn Attia, MD

Evelyn Attia, MD is Director of the Center for Eating Disorders at New York-Presbyterian Hospital, an integrated clinical research program at both Weill Cornell and Columbia University Medical Centers. Dr. Attia is a Professor of Clinical Psychiatry at Weill Cornell Medical College and Columbia University College of Physicians & Surgeons.

An established clinician scientist in the New York area, Dr. Attia has been working with individuals with eating disorders and their families for over 20 years. She is currently funded by the National Institute for Mental Health to study olanzapine vs. placebo for outpatients with anorexia nervosa. Dr. Attia is a member of the eating disorders work-group for DSM-5. She is also a member of The Eating Disorders Research Society and has been elected Fellow of the Academy for Eating Disorders.

The Hilton Pearl River hotel is readily accessible from New York City area transportation hubs, including Newark Liberty, LaGuardia, and JFK Airports. Just off Palisades Interstate Parkway and New York State Thruway, 30 minutes from Manhattan, 15 minutes from Westchester County, New York, and bordering Bergen County, New Jersey. For directions to the hotel, please click [here](#).

A limited block of rooms is available for a conference rate of \$149. Click [here](#) to make your reservations. Please book before February 1st for this special discounted rate!
